Canada's Variety Vacationland

WHERE TO STAY

Kent Essex

HOTELS, MOTELS, RESORTS, LODGES, INNS,
TOURIST OUTFITTERS' CAMPS, CABINS,
GENERAL INFORMATION
ABOUT ONTARIO'S VACATION LANDS.

Compiled by DEPARTMENT of TRAVEL and PUBLICITY
PARLIAMENT BLDGS., TORONTO, ONTARIO

THE HON. JAMES AULD, Minister

GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

For complete regulations on entering Canada ask for the booklet

"HOW TO ENTER CANADA"

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

GENERAL INFORMATION
ABOUT ONTARIO'S VACATION LANDS.**

Compiled by DEPARTMENT of TRAVEL and PUBLICITY
PARLIAMENT BLDGS., TORONTO, ONTARIO

THE HON. JAMES AULD, Minister

GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

Compiled by DEPARTMENT of TRAVEL and PUBLICITY
PARLIAMENT BLDGS., TORONTO, ONTARIO

THE HON. JAMES AULD, Minister

GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

ONTARIO
VACATION REGION 4

Mid-Western

**HOTELS, MOTELS, RESORTS, LODGES, INNS,
TOURIST OUTFITTERS' CAMPS, CABINS,
GENERAL INFORMATION
ABOUT ONTARIO'S VACATION LANDS.**

Compiled by DEPARTMENT of TRAVEL and PUBLICITY
PARLIAMENT BLDGS., TORONTO, ONTARIO

THE HON. JAMES AULD, Minister

GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

PARLIAMENT BLDGS., TORONTO, ONTARIO

THE HON. JAMES AULD, Minister

GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

Ontario

Canada's Variety Vacationland

WHERE TO STAY

Huronia-Lake Simcoe

**HOTELS, MOTELS, RESORTS, LODGES, INNS,
TOURIST OUTFITTERS' CAMPS, CABINS,
GENERAL INFORMATION
ABOUT ONTARIO'S VACATION LANDS.**

Compiled by DEPARTMENT of TRAVEL and PUBLICITY
PARLIAMENT BLDGS., TORONTO, ONTARIO
THE HON. JAMES AULD, Minister
GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, $\frac{1}{2}$ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

THE HON. JAMES AULD, Minister
GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

THE HON. JAMES AULD, Minister
GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"

available at:

ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

Canada's Variety Vacationland

WHERE TO STAY

Bay of Quinte

**HOTELS, MOTELS, RESORTS, LODGES, INNS,
TOURIST OUTFITTERS' CAMPS, CABINS,
GENERAL INFORMATION
ABOUT ONTARIO'S VACATION LANDS.**

Compiled by DEPARTMENT of TRAVEL and PUBLICITY
PARLIAMENT BLDGS., TORONTO, ONTARIO
THE HON. JAMES AULD, Minister
GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

THE HON. JAMES AULD, Minister

GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

GENERAL INFORMATION
ABOUT ONTARIO'S VACATION LANDS.**

Compiled by DEPARTMENT of TRAVEL and PUBLICITY
PARLIAMENT BLDGS., TORONTO, ONTARIO

THE HON. JAMES AULD, Minister

GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

Compiled by DEPARTMENT of TRAVEL and PUBLICITY
PARLIAMENT BLDGS., TORONTO, ONTARIO

THE HON. JAMES AULD, Minister

GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

THE SEAWAY VALLEY

The seaway has caused many tourist establishments to discontinue operation. New establishments are being rapidly built in the area between Prescott and Cornwall. In this 1964 issue of the Stay listings are as accurate as possible at date of publication.

An extensive new parkland has been constructed along this north shore and historical attractions such as Upper Canada Village and Cryslar Memorial Park near Morrisburg have been developed.

The new townsites of Long Sault, Ingleside, Iroquois, and a new part of Morrisburg have been created.

GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

THE HON. JAMES AULD, Minister
GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

ONTARIO
VACATION REGION 17
REGION

Highlands of Haliburton

**HOTELS, MOTELS, RESORTS, LODGES, INNS,
TOURIST OUTFITTERS' CAMPS, CABINS,
GENERAL INFORMATION
ABOUT ONTARIO'S VACATION LANDS.**

Compiled by DEPARTMENT of TRAVEL and PUBLICITY
PARLIAMENT BLDGS., TORONTO, ONTARIO
THE HON. JAMES AULD, Minister
GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

THE HON. JAMES AULD, Minister
GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

GENERAL INFORMATION
ABOUT ONTARIO'S VACATION LANDS.**

Compiled by DEPARTMENT of TRAVEL and PUBLICITY
PARLIAMENT BLDGS., TORONTO, ONTARIO

THE HON. JAMES AULD, Minister

GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

Vacation Region 20 is serviced by two main Highways, No. 11 in the east and No. 69 in the west, both running in a north-south direction and two connecting highways, No. 518 and No. 124, running in an east-west direction. The chief centres of population are Emsdale, Kearney, Burks Falls, Magnetawan, Sundridge, South River, Trout Creek, Loring, Parry Sound, Pointe au Baril and Britt.

Highway 11 enters the Vacation Region at Novar some twelve miles north of Huntsville and extends to Powassan passing through Almaguin Highlands with its innumerable lakes, rivers and colourful scenery. All types of fishing is available including speckled trout, lake trout, bass, pickerel, northern pike and maskinonge. The Loring-Restoule area lies some 35 miles west of Trout Creek and Powassan.

Highway 69 parallels the Georgian Bay shore-line with its thousands of rugged islands and deep inlets abounding with fish. Inland such well-known areas as Waubamic, McKellar, Dunchurch, provide recreation and fishing.

Regional information centres are located at Melissa and Burks Falls on Hwy. 11 and at Parry Sound South and Pointe au Baril on Hwy. 69.

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

Almost 3,000 square miles of forest and game reserve. Truly a beautiful nature spot with its maze of lakes and rivers. See wild animals in their natural habitat—deer that eat out of your hand. Accommodation ranging from deluxe resorts to modest fishing lodges.

TRANSPORTATION: Highway No. 60 runs east and west through the southern portion. Northern part accessible by rail only. Canadian National Railway—North Bay to Pembroke.

FOR DETAILED INFORMATION WRITE: SUPERINTENDENT, ALGONQUIN PARK, ONTARIO.

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

The Nipissing vacation Region includes Lake Nipissing as well as a multitude of other lakes and rivers which can be easily reached by an extensive system of good secondary roads. The city of North Bay is in the centre of the region.

Lake Nipissing, famed for its excellent pickerel fishing and a stretch of sandy beach equal to any found in Florida, is a favourite haunt for tourists throughout the summer and is well provided with good fishing camps as well as other types of accommodation.

Going north up No. 11 Highway, Lake Temagami, long known as a vast summer playground for visitors, may be reached in about one hour's driving. The lake is studded with some 1200 islands and its 3000 miles of pine clad shoreline have remained untouched for almost a century.

In addition to excellent fishing, there are many other points of interest in the region to be visited. Callander, the birthplace of the famous quintuplets, is a few miles south of North Bay and the historic trail followed by Champlain, the 16th Century explorer, follows along a picturesque water route from Mattawa to North Bay and provides a thrilling and scenic canoe trip for those who like to get close to nature. For those with less time to spend, a daily steamer trip across Lake Nipissing on the Ontario Northland Railway cruise boat, Chief Commanda, from North Bay to the French River and return makes a pleasant day's outing. The region also has four provincial parks located near Mattawa, Marten River and Temagami.

Transportation: The Region is well served by both Provincial Highways and District roads. No 11 Highway enters from the south and runs through the region up to Temagami. No. 17 Highway enters from the east and runs through the region from the east to west to Sudbury. No. 63 Highway from North Bay runs to Temiskaming at the Quebec border and joins up with the Quebec highway system. North Bay is served by the Canadian Pacific Railway and Canadian National Railway main lines and is the terminal for the Ontario Northland Railway from North Bay to Moosonee. Trans-Canada Airlines operate a daily service from the airport at North Bay to Toronto and also to Timmins via Sudbury. Gray Coach Bus Lines also operate daily services from Toronto and Montreal.

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

The city of Sudbury, heart of the world's greatest nickel mines from which over 85 per cent of all nickel supplies are obtained, is the focal point of the region. Although giant smelters and mine shafts are a feature of the terrain around Sudbury, little more than an hour's drive takes the visitor to picturesque reaches of the French River where some of the best fishing in the District can be found. Accommodation of every kind is obtainable from the large fishing lodge providing excellent accommodation with full dining-room service to the more modest house-keeping cottage tucked away on some distant lake. access to this region from Parry Sound as well as from the north.

In the northern section of the region lies part of the Temagami Forest Reserve with its scenic lakes among giant pine trees far removed from habitation. Beautiful Lake Penage, a few miles west of Sudbury, is another favourite tourist haunt, bounded on the south by the rugged Killarney mountain range, one of the highest spots in Ontario. Good hunting and fishing are accessible throughout the region. Regional tourist information centres are located near the French River on Highway 69 and at the three main entrances to the city of Sudbury on Highway 69 south, Highway 17 east, and Highway 17 west.

Transportation: No. 17 highway traverses the region from east to west and No. 69 highway from Sudbury runs south through the French River region to Parry Sound. Newly developed highway 637 now opens up the region between the historic village of Killarney and Burwash on Hwy. 69. Both C.P.R. and C.N.R. run through the region and provide the only access to many fishing camps on isolated lakes beyond road travel. TCA operates daily flights to and from Sudbury. A charter seaplane service operates from Ramsey Lake for air transportation to any of the outlying lakes. Gray Coach bus lines operate a regular service to and from Sudbury.

THE HON. JAMES AULD, Minister

GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

This is the famous Manitoulin Island lying along the north shore of Lake Huron and is readily accessible by cruiser from many of the United States ports in Michigan. When travelling by car on the Canadian Side, the road from Espanola winding south through the mountains to Little Current on Manitoulin Island is a scenic trip and one which will be long remembered if for no other reason than the hairpin bends and the rugged mountain terrain.

Manitoulin Island is the world's largest fresh water island and contains 100 inland lakes in addition to innumerable bays and inlets along its shoreline and is still one of the outstanding sportsman's areas in the Province. The many bays and inlets of the island's shoreline provide excellent anchorage for cruisers and several of the larger resorts in the area make a specialty of catering to visitors who prefer this means of holiday travel.

In Indian, Manitoulin means "Home of the Great Spirit". For centuries peopled only by the red men, this civilization has left its mark in the Indian burial grounds, churches, schools and picturesque customs handed down through the centuries. Recent discovery of the ancient remains of an Indian village in the vicinity of Sheguiandah not far from Little Current has created considerable interest in archaeological circles. Good bass fishing, particularly in late summer, may be found at many places in the waters of Georgian Bay and the Island is well provided with fishing camps and other types of modern accommodation. Good highways and picturesque scenery are features of this attractive country.

A Regional Tourist Information Centre is located at the town of Gore Bay on Highway 540. This is generally open from 1st July to Mid-September.

TRANSPORTATION: No. 17 highway from Sudbury enters the Region at McKerrow and a good secondary road system provides access to many of the lakes. No. 68 highway from Espanola runs south to Manitoulin Island and a good network of roads exists throughout the Island itself. C.P.R. service runs from Sudbury to Little Current. An automobile ferry service operates daily from the 1st June during the summer months between South Baymouth and Tobermory on the mainland of Bruce Peninsula.

THE HON. JAMES AULD, Minister
GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

This is the famous Algoma country which has long been renowned as a sportsman's vacation land.

A wide variety of fishing attracts both the enthusiastic sportsman who wants to "rough it" in far off lakes as well as the family party looking for a day or two of fishing as a pleasant relaxation. Although good roads in the southern part of the region bring hundreds of lakes within easy driving reach, there are many more still untouched by the hand of man into which the only access is by aircraft or bush trail. In such spots as these, the fisherman will count his efforts well rewarded.

For the sightseer too, who appreciates nature's handiwork the rugged beauty of Lake Superior's shoreline viewed from No. 17 highway going North from the Soo presents some truly magnificent scenery. The last link in this highway joining Sault Ste. Marie to the Lakehead through the Town of Wawa has now been completed and No. 17 highway is now known as the TransCanada highway. The famous Agawa Canyon North of the Soo is another scenic attraction for the traveller on the Algoma Central Railway.

St. Joseph's Island, a few miles East of the Soo, in addition to its other attractions, is the scene of a historic incident which dates back to the conflict between the United States and Canada in the early 19th century. The site of old Fort St. Joseph on the southern tip of the island is now designated as a bird sanctuary.

The city of Sault Ste. Marie with a population of 44,031 is the home of one of Canada's big three steel mills and is also the site of the important lock system between Lake Superior and Lake Huron. The tonnage of shipping passing through these locks in the course of the season is greater than that handled by any other port in the world. Accommodation in the region is as varied as the recreational attractions and full information may be obtained from the Ontario Government Tourist Reception Centre or the Sault Ste. Marie Chamber of Commerce.

Two regional tourist information centres operated by the Algoma Regional Tourist Council are located on No. 17 Highway just north of the city of Sault Ste. Marie and No. 17 east at the city limits respectively. These information centres are generally open from June to mid-September.

Transportation: No. 17 highway traverses the region from east to west and extends north from Sault Ste. Marie to Wawa and thence along the north shore to Nipigon and the Lakehead. Highway 129, sometimes known as "The Chapleau Road", runs north from Thessalon on Highway 17 to Chapleau and has recently been extended to the Northeast to connect with Highway 101 West of Timmins so that a new circle route through this region is now provided. The C.P.R. runs from Sudbury to the Soo and the A.C.R. runs north from the Soo to Hearst. T.C.A. operates a daily service. Greyhound Bus Lines operate a daily service along No. 17 highway. The new International Bridge now links the two Soos.

GENERAL INFORMATION
ABOUT ONTARIO'S VACATION LANDS.**

Compiled by DEPARTMENT of TRAVEL and PUBLICITY
PARLIAMENT BLDGS., TORONTO, ONTARIO

THE HON. JAMES AULD, Minister

GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

The Golden Route Tourist Region extends from the Quebec border to just east of Lake Superior. The recently completed Highway 101 running east and west through the region opens up a vast new area of virgin hunting and fishing country. Centres of shopping and outfitting services include Chapleau, Foleyet, Timmins, South Porcupine, Ansonville and Matheson. The Porcupine Gold Mining district is the largest gold-producing area in the Western Hemisphere. Underground mine tours may be arranged through the Porcupine Chamber of Commerce. The lumber industry is still carried on throughout the region as well as asbestos mining at Matheson and the manufacture of newsprint paper at Iroquois Falls. Guided tours of these industries may be arranged locally.

Transportation: Highway 129 from Thessalon enters the region from the south-west through the Mississagi Provincial Forest and terminates at Chapleau. Highway 101 runs from Chapleau east to the Quebec border. Highway 11 runs from Matheson north to Cochrane. The O.N.R., C.N.R., and C.P.R. run through various sections of the region providing rail service. There are daily flights out of Timmins airport by T.C.A.

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

The Temiskaming Vacation Region covers a large section of country and includes a variety of interests for the tourist from the famous mile of gold at Kirkland Lake and the Cobalt silver mines to some of the wildest and most interesting fishing country.

Going north along the smooth surface of No. 11 highway through the Temagami Forest Reserve, is the Tri-town area with Cobalt supporting a mining museum, Haileybury known as the 'District Town', and New Liskeard with its mile of sandy beach. Easily accessible from here is the Montreal River and its adjacent waters where excellent fishing for pickerel and pike may be found. Five miles north of Haileybury is the modern town of New Liskeard, a well developed community in the centre of a rich farming belt lying at the north end of Lake Temiskaming. From New Liskeard going west on No. 65 highway to Elk Lake, recently constructed Hwy. 560 from Elk Lake now reaches far into the bush country to the west to the town of Gogama and brings within easy reach of the fisherman many hitherto unexplored lakes and rivers. A number of tourist camps in this area previously only accessible by railroad or aircraft are now within comfortable driving range.

Further to the north just off No. 11 highway lies Kirkland Lake, centre of one of the oldest gold mining camps in Ontario. Regional tourist information centres are located at the junction of highways 11 and 11B, 5 miles north of Latchford and at the junction of highways 11 and 112, 15 miles south of Kirkland Lake.

Transportation: No. 11 highway runs through the region from south to north with No. 65 highway branching off to the west at New Liskeard and terminating at Matachewan. Railroad transportation is via O.N.R. from North Bay which travels north through the area to Cochrane and eventually to Moosonee on James Bay.

THE HON. JAMES AULD, Minister

GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

The James Bay Frontier Vacation Region includes 210 miles of Highway No. 11, the most northerly route across Ontario linking Cochrane with the Lakehead.

In the eastern end of the region, in addition to lakes, rivers and woodlands, is the Cochrane clay belt, one of the most productive agricultural sections of the Province and capable of tremendous crop yields. 180 miles north of Cochrane are the thriving and historic communities of Moosonee and Moose Factory. Located near the mouth of the Moose River on James Bay this area is the fall habitat for thousands of wild geese on their way south from Baffinland. The annual goose hunt is a well-known and interesting attraction. This vast arctic watershed provides hydro power for industries to the south with generating stations located at Otter Rapids, Abitibi Canyon, Little Long Rapids, Smoky Falls and Island Falls. Further west are located the towns of Smooth Rock Falls and Kapuskasing, in the heart of the pulpwood country and these two mill towns of the north are producing enormous outputs of processed pulp for consumption by big daily newspapers in New York. Beyond Kapuskasing, the country is sparsely populated and besides the towns of Hearst and Hornepayne which are centres of the pulp cutting industry, there is little in the way of habitation.

Good fishing for large pike, walleyes and speckled trout is available in most of the rivers and lakes but as the right spots are often difficult to find the services of a guide are recommended to anyone not familiar with the country. Hunting for bear and moose, as well as duck, in season, is also an attraction for the sportsman and may be found in many sections.

TRANSPORTATION: No. 11 Highway enters the region from the east and runs to Nipigon which is 855 miles from Toronto. From the west, No. 17 Highway and U.S. 61 from the Lakehead and Duluth provide access to the region. The C.N.R. passes through the region from east to west and the A.C.R. running north from Sault Ste. Marie has its terminal at Hearst. The Ontario Northland Railway from North Bay runs through the easterly section of the region and has its terminus at Moosonee. Charter aircraft service is available from bases at Cochrane, Kapuskasing and Moosonee.

THE HON. JAMES AULD, Minister

GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

This area comprises a long strip of terrain lying north of the rugged north shore of Lake Superior and extends west of the Lakehead for a distance of some 75 miles to Atikokan from which point Highway 11 is slowly being extended further west to link up with Fort Frances. Highway 17, with recent completion of the Trans-Canada Highway system link from White River to Wawa, now provides excellent road travel from Sault Ste. Marie, a distance of approximately 450 miles to the Lakehead.

Good fishing for large northern pike, walleyes, speckled and lake trout is available in most of the rivers and lakes but as the right spots are often difficult to find the services of a guide are recommended to anyone not familiar with the country. Hunting for bear, and moose as well as duck, in season, is also an attraction for the sportsman and may be found in many sections of the area.

Many scenic points will reward the traveller along this route which at different stages overlooks the vast water of Lake Superior. Other points worth seeing in the area are Kakabeka Falls, a few miles west of the Lakehead on Highway 11 and the large wilderness area of Quetico Park lying between No. 11 Highway and the U.S. border to the south. Within a mile or two of the growing twin cities of Fort William and Port Arthur, the spectacular and unusual rock formation, known as Nanabijou the sleeping giant rearing its gigantic form above the surface of the lake, is a picturesque sight and the magnificent view from Lookout Point on lofty Mount McKay is another view that should not be missed.

North-East of Nipigon on Highway No. 11 there is considerable gold mining and timber cutting in the vicinity of Beardmore, Geraldton and Long Lac.

The rapidly growing cities of Fort William and Port Arthur, with a combined population of 90,186, providing the hub of development in northwestern Ontario offer excellent shopping facilities with a variety of hotel and motel accommodation for the traveller.

Transportation: U.S. Interstate Highway 61 from Duluth terminates at Pigeon River where it joins with Ontario Highway 61; Highway 11 from North Bay provides access via the Northern Route and extends west as far as Atikokan. The new Trans-Canada Highway 17 traverses the area from White River to the Lakehead and also provides access from Manitoba. The Canadian National and Canadian Pacific Railways service this region and the Trans-Canada Airlines schedule daily flights to and from Fort William and Port Arthur. **OFFICIAL ONTARIO GOVERNMENT RECEPTION CENTRE AT MIDDLE FALLS ON CANADIAN SIDE.**

1964

HOTELS, MOTELS, RESORTS, LODGES, INNS,
TOURIST OUTFITTERS' CAMPS, CABINS,
GENERAL INFORMATION
ABOUT ONTARIO'S VACATION LANDS.

Compiled by DEPARTMENT of TRAVEL and PUBLICITY
PARLIAMENT BLDGS., TORONTO, ONTARIO
THE HON. JAMES AULD, Minister
GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

The Rainy River Tourist Region extends from a point on No. 11 Highway some 80 miles west of Port Arthur through to the southeast corner of the vast Lake of the Woods and includes the Towns of Fort Frances, Rainy River and Atikokan. Although Highway 11 from Port Arthur enters the Region from the east and continues to Atikokan, the incomplete section of this highway leaves a gap in the centre of the Region which is not yet accessible by road. The Region includes the beautiful Quetico Provincial Park and Rainy Lake across which the Highway 11 causeway is now under construction.

TRANSPORTATION: Highway 71 traverses the Region from the Minnesota border crossing point at International Falls to the junction with Highway 17 just east of Kenora. Highway 11, when completed, will traverse the Region from east to west from the Thunder Bay District boundary to Rainy River. U.S. Interstate Highway 53 from Duluth terminates at International Falls making connection there with Highway 71 and Highway 11. **Official Ontario Government Reception Centres at Fort Frances and Kenora.** Canadian National Railways service this district. Charter plane service is available at Fort Frances. Enquire as to transportation when making your reservation.

FOR DETAILED INFORMATION PERTAINING TO THE RAINY RIVER REGION, WRITE THE SECRETARY, RAINY RIVER REGIONAL TOURIST COUNCIL, BOX 237, FORT FRANCES, OR FORT FRANCES, RAINY RIVER OR ATIKOKAN CHAMBERS OF COMMERCE.

**HOTELS, MOTELS, RESORTS, LODGES, INNS,
TOURIST OUTFITTERS' CAMPS, CABINS,
GENERAL INFORMATION
ABOUT ONTARIO'S VACATION LANDS.**

Compiled by DEPARTMENT of TRAVEL and PUBLICITY
PARLIAMENT BLDGS., TORONTO, ONTARIO

THE HON. JAMES AULD, Minister

GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not clear.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

The Lake of the Woods Tourist Region embracing all of the Lake of the Woods and the terrain to the North and East of this large body of water includes thousands of square miles of vacation playground with Kenora and Nestor Falls the entry points and main towns of the region. Hundreds of lakes with excellent fishing for small-mouth bass, walleye, trout and muskellunge provide many trophy prizes and thrilling experiences. Vast forested areas provide sportsmen with Autumn big game hunting.

Many of the Tourist Outfitting establishments in the Northern section of the Region are accessible only by air from a well equipped seaplane base at Kenora.

Complete shopping and outfitting services at Kenora, Sioux Narrows and Nestor Falls for the family vacationer, the traveller and the sportsman. Delightful resorts, sportsmen's camps and Canadian hospitality at its best, make this the ideal vacation region.

TRANSPORTATION: Highway 17 is a continuation of Manitoba Highway 1 from the Ontario boundary 30 miles west of Kenora. Highway 71 traverses the region from the Minnesota border crossing point at International Falls to the junction with Highway 17 just east of Kenora. U.S. Interstate Highway 53 from Duluth terminates at International Falls making connection with Highway 71 and Highway 11. **Official Ontario Government Reception Centre at Kenora.** Canadian National and Canadian Pacific Railways service this district. Charter plane service is available at Kenora, Sioux Narrows and Nestor Falls. Enquire as to transportation when making your reservation.

FOR DETAILED INFORMATION PERTAINING TO THE LAKE OF THE WOODS RESORT REGION WRITE THE LAKE OF THE WOODS TOURIST BUREAU, KENORA, ONTARIO, OR THE LAKE OF THE WOODS REGIONAL TOURIST COUNCIL AT THE SAME ADDRESS.

ABOUT ONTARIO'S VACATION LANDS.**

Compiled by DEPARTMENT of TRAVEL and PUBLICITY
PARLIAMENT BLDGS., TORONTO, ONTARIO

THE HON. JAMES AULD, Minister

GUY E. MOORE, Deputy Minister

Tent or Trailer Establishments refer to Department of Travel and Publicity Booklet "Camp Sites and Roadside Parks in Ontario"

PRINTED IN CANADA

SUMMARY OF BORDER CROSSING AND ENTRY REGULATIONS

EASY TO ENTER

Your welcome to Canada is accomplished with a minimum of delay or border restrictions. No passports are necessary for permanent residents of the U.S.A., but some form of identification should be carried which will facilitate re-entry into the United States.

Automobiles, Motorcycles and Bicycles may be brought into Canada under a Travellers' Vehicle Permit, for which there is no fee or deposit, for a period of six months. An extension may be granted at the termination of this time free of charge, by the Canadian Customs officers. (A separate permit is not required for a trailer.) If the driver of the car is not the owner, he should be able to produce evidence of permission from the owner stating that the driver may use the car for touring in Canada. A current U.S. State Operator's Licence is valid in Canada.

Pleasure Boats may enter Canada by water for a period up to six months under a Customs permit obtainable at entry. This document is to be surrendered to Canadian Customs when departing.

TRAVELLERS' BAGGAGE

Personal effects brought in for use on the journey may be admitted duty free. Fifty cigars, two hundred cigarettes and two pounds of tobacco but only forty ounces of alcoholic beverages may be brought in duty free by a non-resident traveller.

FOOD, GAS, OIL

Goods for consumption, viz. food, gasoline, oil, etc., are dutiable—but reasonable quantities for the tourist's use are granted free entry: for example, two days' food, and gas and oil for 300 miles motoring.

HUNTING AND FISHING EQUIPMENT

Visitors entering Canada may bring with them, for their own personal use, tourist outfits and sportsmen's equipment which must be reported to the customs officer at the port of entry and a description and value of the articles given. Sportsmen should acquaint themselves with regulations regarding the carrying of firearms and fishing tackle in the Province they intend to visit. Do not attempt to hunt or fish until a valid licence is secured.

Dogs and Pets may be entered as part of the tourists' personal baggage or equipment duty free. All dogs for entry into Canada from the U.S.A. must be accompanied by a certificate from an Inspector of the United States Agricultural Research Service stating freedom from contagious diseases, etc., or a certificate from a licensed veterinarian stating that the dog has been vaccinated against rabies during the past six months.

PROCEDURE ON ENTRY

A minimum of delay is experienced at the border if the tourists observe the following:

- (A) Report to the Canadian Immigration Officer at the port of entry. Foreign born citizens and alien residents of the United States should be prepared to present credentials establishing their legal residence in the United States.
- (B) Report to the Canadian Customs and obtain a Travellers' Vehicle Permit. Car registration card must be carried. Declare all articles or goods whether they are exempt from duty or not.

RETURNING TO U.S. AND U.S. CUSTOMS EXEMPTIONS

Americans and others with a legal or constitutional right to re-enter the United States must be prepared to prove citizenship or legal residence—the onus of proof is on the traveller.

U.S. residents may take back once every 31 days merchandise for personal or household use to the value of \$100 duty and tax free, provided they remained in Canada more than 48 hours. Members of a family household travelling together may combine exemptions. Under the above exemptions up to 100 cigars and one wine gallon of alcoholic beverages may be imported. If State Laws prohibit importation of alcohol, U.S. Customs will not allow.

Customs Declaration: All articles acquired in Canada must be declared to U.S. Customs officers on return, using the forms provided.

Wholesale Values: U.S. Customs may determine the value of purchases on wholesale prices. Sales receipts must show prices paid for merchandise. Only U.S. Customs officers may evaluate and make wholesale adjustments on purchases.

U.S. residents visiting Canada for less than 48 hours may take back for personal or household use, merchandise to the value of \$10, duty and tax free. Members of a family household are not permitted to combine the value of purchases under this exemption. Such exemption must not include more than 50 cigarettes, 10 cigars, ½ lb. manufactured tobacco, 4 oz. alcoholic beverages or 4 oz. alcoholic perfumery.

Bona fide gifts of articles (other than alcoholic beverages, perfume containing alcohol, or tobacco products) sent to a person in the U.S. are passed free of duty provided the aggregate value of such articles received by one person in one day does not exceed \$10. Gift packages should be plainly marked "Gift" and the value indicated on export forms provided by Canadian Government Post Offices.

**For complete regulations on entering Canada ask for the booklet
"HOW TO ENTER CANADA"**

available at:

**ONTARIO DEPARTMENT OF TRAVEL AND PUBLICITY,
PARLIAMENT BLDGS., TORONTO, ONTARIO
or CANADIAN GOVERNMENT TRAVEL BUREAU, OTTAWA, ONTARIO**

In listing Hotels, Resorts and Camps, establishments are placed in geographical vacation areas according to the map on cover page.

The column "Type of Establishment" indicates the type of Provincial license under which the establishment operates.

All data is naturally subject to change. Rates and other information are subject to change without notice. The figures quoted are from information gathered in 1963 and to the best of knowledge are correct. It is advisable, where possible, to have a definite agreement with the proprietor as to rates and accommodation to be furnished before checking in.

The Government does not classify any accommodation as to quality and makes no advance guarantee of guest-satisfaction.

The Patricia Tourist Region extends from the Thunder Bay District Boundary Line in the East to a point some thirty miles West of Dryden on Highway 17 and includes a vast area of relatively unexplored terrain to the North up to a line between the 51st and 52nd parallels of latitude. The whole Region is honeycombed with lakes, both large and small, in which some of Ontario's finest game fishing may be found. Good highways provide access to the Red Lake and Sioux Lookout Regions but many of the tourist outfitting establishments north of Highway 17 must necessarily be accessible only by air.

TRANSPORTATION: Highway 17 and the Transcontinental line of the Canadian Pacific Railway traverse this district from east to west. Highways 105 and 72 run north from Highway 17 at Vermilion Bay and Dinorwic respectively. Charter Plane services available at Dryden, Sioux Lookout, Red Lake and Vermilion Bay to any of the "fly-in" camps. Launch service is also available from Wabigoon to many tourist camps. Make reservations in advance to assure good accommodation.

FOR FURTHER DETAILED INFORMATION RE THIS REGION WRITE THE PATRICIA REGIONAL TOURIST COUNCIL, DRYDEN, ONTARIO OR CHAMBER OF COMMERCE AT RED LAKE, EAR FALLS, SIOUX LOOKOUT, OR HUDSON TOURIST BUREAU, C/O THE CHAMBER OF COMMERCE, DRYDEN, ONTARIO.
